## THE LIGHTS OF VADERVILLE EXTREME HOLIDAY DISPLAY NOW OPEN FOR 2007! Expanded Multi-Home Display Includes Over 30,000 Lights, a Virtual Santa and More.

Holiday cheer is what keeps us going throughout the year and the hard work we put into bringing the community our Christmas display is our ode to the joys that come with the holiday season.

This is our second year of running a computer controlled light show; we've added a good bit of growth for 2007. This year our display will include over 30,000 lights, 30 strobe lights, a virtual snow machine made out of a rotating disco ball, a virtual Santa Claus, red and green flood backdrops, a new 'mini-mega tree' and a fancy new sign announcing the radio signal at 107.3fm!

We've also added another whole house to the display! Our neighbor has joined the fun by installing a computer animated display of his own and we've synced the two of them to the same fantastic musical play list. It is a fun and unique experience that the entire family will enjoy!

The show is synchronized to a variety of unique holiday tunes and can be heard by tuning your car stereo to 107.3 FM.

The show runs from 7pm -9pm Sunday-Thurs nights and 7pm -10pm on Fri and Sat nights. Please come by and see us!

Please see [www.vaderfamily.info](http://www.vaderfamily.info) for show times, maps and complete details.
